

NOTE.

MARGINELLA SHACKLEFORDI, NOM. NOV. FOR *M. EBURNEA*, PRESTON,¹ 1906, NON LAMARCK. (*Read 11th June, 1915.*)—The Rev. Lewis J. Shackleford having very kindly pointed out to me that the name *eburnea* is preoccupied by Lamarck for a fossil species of the genus, I have much pleasure in taking the present opportunity of substituting the name *M. shacklefordi* in its place.

H. B. PRESTON.
